HABITAT WORLD, LCMT and BIENNALE HABITAT partners' faculty will teach the programme. However, some guest lecturers, including eminent industry leaders, will share their work/research related experiences.

Invitation letter

Once applications are approved and agreed fees are paid, visa support documents are issued to participants by Habitat World and its partners that require them. International participants are asked to apply for their visa at their nearest EMBASSY OF ITALY VISA CENTRE or consulate.

Requirements for short-term study visa

- A valid passport
- Letter of enrolment
- Confirmation of accommodation
- Proof of necessary funds held in the participants or parents' or sponsor's account
- Participants past academic progress and
- A letter of confirmation from the current institution/employee/other approved sources.
- Please refer to the webpage of the Ministry of the Foreign Affairs of Italy:

<https://vistoperitalia.esteri.it/home/en>

Participants accommodation

HABITAT WORLD has ties with various accommodation providers. Subject to the availability and requirements, accommodation units can be booked in advance. Some accommodation units are single and others are shared units with other participants. Depending upon the type of the accommodation there are provisions for self-catering, but in-room dining can be served to all participants for dinner at an additional cost. Complementary sandwiches and snacks may be provided during some of the training sessions. Full details of all amenities are usually mentioned in the admission confirmation letter issued by HABITAT WORLD.

CENTRE OF FLORENCE**

The programme cost is inclusive of the following:

- **Airport transfer and drop off for group travellers**
- **Accommodation**
- **Selected travel expenses in ITALY or visits and sightseeing**
- **Business and social visits**

Programme Overview

The programme is designed to prepare young entrepreneurs for the challenges of the 21st century and to promote the international work experience in sustainable development as part of the Biennale Habitat 2020-22. The aim of this programme is to provide a positive image of business (green-blue economy) activities and to develop in participants the key skills needed to develop and run their own business or to participate and engage in international business.

The goal of the programme is to increase an aspiring entrepreneur's capacity and capability to effectively learn not only from the academic components but also from industry visits and practical aspects in Italy. The following are the key features of the programme:

- **Understand the powerful logic of entrepreneurial thought and action and how it can be taught and applied to entrepreneurs in the fields of transport, technology, tourism and agricultural sectors and the role of Chamber of Commerce and other work agencies in this role.**
- **Comprehend the entrepreneur and the entrepreneurial mind set in Italy.**
- **Recognise key process and content aspects of entrepreneurship in Italy.**
- **Deeply understand specific content areas related to entrepreneurship in Italy.**
- **Appreciate the value of the case study method and the growing popularity of other experiential and action-based methods in Italy.**
- **Investigate different roles of international work related experiences in Italy.**

Programme curriculum

The Young Entrepreneurs training programme features the modules listed below, which provide deep insight into specific topic areas and are discussed around the principles and framework of entrepreneurial thought and action.

- Introduction to entrepreneurship in Italy.
- What is a business and who is an entrepreneur The ITALIAN JOB.
